

# Shipping Compliance. Integrated.

Nexternal Solutions & ShipCompliant.

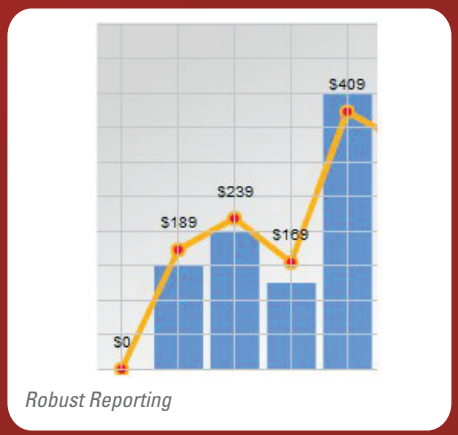

Nexternal Solutions provides web-based e-commerce and wine club software to more than 250 wineries and wine retailers. Direct sales are an increasingly critical source of profit for wineries with online sales reflecting the fastest growing component. Nexternal provides a comprehensive suite of tools to help better market wines, drive more traffic to the website, create more efficiency with data management, fulfillment and reporting to help build a successful sales channel. The Nexternal / ShipCompliant integration allows wineries to seamlessly transfer data from Nexternal into ShipCompliant for easy compliance checks and reporting capabilities.
